Dear Fellow BANCF Member:

Please join me for a Reception honoring Barry Rutenberg, Tuesday, June 24, 5-6:30pm, at the C. Perry Construction Office.

We have a unique and exciting opportunity coming our way....the opportunity to elect Barry Rutenberg, a long-time member of the Builders Association of North Central Florida as Vice President/Secretary of the National Association of Home Builders (NAHB), the traditional first step to the presidency of the 235,000-member federation.

While Barry would serve the entire nation's home building industry as a Senior Officer and ultimately President of NAHB, his influence would assure that our vital local and state issues are appropriately considered and addressed... and his success would bring positive attention to the community and the BA of North Central Florida.

It has been over twenty-five years since a Florida member has been the President of NAHB. And, we have never had a national president from our local association. Members from across the state are uniting to help Barry Rutenberg win this election and it will be a hard-fought race as he has a tough opponent. Campaigns for NAHB Office are much like political campaigns and are quite costly; Barry's campaign is expected to cost over \$250,000. The Florida Home Builders Association has already stepped up and made a substantial contribution and now it is our turn.

Please join me at the Reception honoring Barry Rutenberg on Tuesday, June 24, 5-6:30pm, at the C. Perry Construction office. And, please bring your checkbook! This is BANCF's opportunity to be a part of this historic event and help Barry Rutenberg get elected.

Please RSVP by calling 352-372-5649 or email gina@banconf.com. And, if you are unable to attend the reception, you can mail a check for Barry's campaign to: 2217 NW 66th Court, Gainesville, FL 32653. Make the check payable to: Barry Rutenberg Campaign.

We look forward to seeing you on June 24th.

Brian Leslie, President
Builders Association of North Central Florida

Gina Hill, Executive Vice President
